Registered Nurse:	Ellen Watson Nancy May
Insurance and Billing:	Cathy Mills Debra Neidig – (602) 388-8913

Please bring your insurance card or other insurance documentation and drivers license with you to your visit. Some insurance plans require that you have a referral from your primary care physician in order to receive obstetrical/gynecological care. Services or treatments may be recommended by your physician that your insurance does not cover. You will be responsible for the payment of those services. If you are uncertain about the need for a referral or covered services, please call your insurance company or our office.

You should receive a letter with instructions on filling out your personal history online prior to your visit. Please arrive 45 minutes prior to your scheduled visit if you have not filled out your history online at home. You may take that 45 minutes to fill it out in our office prior to your visit. If you do not arrive early to fill out your history, you may have to reschedule your appointment due to time constraints.

During your visit, please feel free to ask any questions or share any concerns you might have. Your health care is a partnership and we are counting on you to take an active role in your good health. This includes freely discussing symptoms as well as leading a healthy lifestyle. We look forward to meeting you, and providing excellent obstetrical and gynecologic care for you. If you have any questions, please do not hesitate to call our office.

Our office is located 1 block east of the 101 freeway on Thomas Road, in the Estrella Medical Plaza Building 1. Our suite is on the first floor off the main lobby. Plenty of parking is available.

Sincerely,

The Staff and Physicians of *West Valley Women's Care*
